The Company has a “Sustainability Roadmap” that provides confidence for the future, by setting ourselves challenging targets to be more responsive, flexible and robust within an ever changing and demanding market. As part of this plan, we’ve focussed on three core areas: People, Prosperity and Planet; with continued investment in all three. The core area of “Prosperity” reflects our commitment to quality and operational excellence with particular emphasis on:

- Strong project management
- Quality, costs and timely delivery
- Improving the effectiveness and efficiency of our processes
- Development of suppliers and sub-contractors
- Lean thinking

Appropriate resources will continually be made available to ensure that the quality policy is implemented in full through annual objectives, managerial vigilance and regular auditing and review.

This policy statement may be amended, monitored and added to from time to time and a copy will be available to all employees, contracted staff on site and interested parties through a link on the home page of our website. In addition, a copy will be displayed at head office.
